

# NOVEMBER IS CLOSE, WHAT WILL YOU DO?

Hello Fellow Patriot,

I am beginning to sound like a broken record in the opening paragraphs of our LCP Newsletter. Almost every month, I say that I am happy about the end of the previous month: August was no exception!

August was particularly stressful for those who live in Lake County, Montana. We watched a wildfire reach the immense size of 22K acres, threatening the Proctor Valley and Lake Mary Ronan. Many of us were evacuated for several days and were very grateful to return to our homes.

God bless the firefighters who worked day and night for many days and the pilots of the spectacular aircraft and helicopters that dropped hundreds of thousands of gallons of water on the fire. One day over 600K gallons! A tremendous wealth of resources was brought to bear, and we are all thankful for that.

What else did the glorious month of August bring? It brought yet another attempt to set President Trump up for trumped-up charges regarding classified documents to make him ineligible to run for the Presidency in 2024. The raid on Mar-a-Lago was an egregious misuse of power by the DOJ and the FBI.

We all need to realize that President Trump is a target because of his unwavering love of this country and its citizens and his desire to Make America Great Again. He is a direct threat to the goals of the globalists, the Marxists, the progressives, and all those who would love to see America subsumed into a New World Order.

What's next in their relentless quest for the end of President Trump? I don't think that American Patriots can begin to imagine what their next move will be.

August also brought a direct assault on most Americans through the student loan forgiveness debacle. That move was akin to throwing gasoline on a fire, the fire being inflation and the looming recession. Hopefully, this stupid act will be challenged in the courts as illegal for Biden to have done in the first place. We just have to pray that the case ends up in a court that upholds the Constitution and the rule of law. I am less confident of that at all levels of the judiciary than I have ever been in my lifetime.

Patriots, it is time for action. The mid-terms are almost here, and that election's outcome will lay a foundation for what happens in 2024.

Starting on January 1, 2023, we must hold our elected officials accountable to restore law and order to the Republic.

We are *Last Chance Patriots* who believe in America, her Constitution, and her founding principles. Let's all do our jobs and help deliver a substantial conservative turnout in November. In that case, we will have control of both houses of Congress.

Now is the time for ***We the People*** to take power away from those who wish to destroy us and others worldwide!
