

How Did This Happen?

A few questions for my fellow Adams County residents: **How did we get to this place in American history, who brought us here, and when did we agree to all this?** As we begin a new year, those of us who are paying attention find ourselves in a country we no longer recognize.

Did someone or something seize control of the United States while we weren't paying attention?

How did unelected bureaucrats get the power to shut down churches and businesses, cancel rental contracts, confine us in our homes, and force us to cover our faces?

How could it become illegal for small businesses to sell flower seeds or shampoo, but not so for Walmart or Amazon?

Whose decision was it to deny us one medical treatment and force us to take another? AND WHY AREN'T WE ALLOWED TO TALK ABOUT IT?

Who erased the U.S. border and encouraged 5 million illegal aliens to cross it?

Who decided to turn our backs on abundant, cheap energy, needlessly squandering our nation's wealth on windmills, "solar farms" and battery powered cars for the rich, while working people struggle to buy once-affordable fuel for their cars and homes?

How did we run up \$30 trillion in debt we can never repay, while the once-solid U.S. dollar became not much more than a legal counterfeit?

How did it become OK for mobs to riot in the streets, burn down businesses, and attack our police? Who decided that criminals shouldn't be penalized for theft, murder, and mayhem in our cities? When did it become normal to see human excrement on our sidewalks?

Why weren't the bullies and thugs who surrounded our Supreme Court justice's homes hauled off to jail, but patriotic Americans who attended a rally by a sitting president are hunted down by the FBI? And how was that same president systematically hounded, harassed, and silenced, while a criminal cartel took over the White House?

Who ordered our FBI to pressure news outlets to censor particular stories and journalists? To fabricate evidence against political opponents? To criminalize parents who questioned what was happening to their children in public schools?

How did it suddenly become normal for children to change their gender, and wrong to object?

Who decided that female athletes had to compete with men and allow them into their locker rooms? Were women ever asked if this was OK with them?

How did Election Day become election months? Why did it suddenly become OK for billionaires to buy local boards of election? When did anyone who questioned our vote counting process become a “terrorist” and an “insurrectionist?” Who decided that it’s “dangerous to our democracy” to audit election results or purify voter rolls? And why isn’t there a single court or judge anywhere in the entire country with the courage to actually examine the massive evidence of election fraud? How is it that we’ve been waging war continuously all around the world for more than 70 years without a single congressional declaration of war?

Why didn’t our shameful and embarrassing retreat from Afghanistan prompt a single congressional hearing? Whose fantasy was it that we could defeat Russia by subsidizing the corrupt government of Ukraine? Why are we paying Ukrainian pensions when there are homeless veterans on our own streets?

Were we ever asked whether our universities could discriminate against our sons and daughters based on the color of their skin? How did it become physically dangerous to speak the truth on a college campus?

Why are working-class Americans now expected to subsidize socialist professors and pay off the student loans of other people’s children?

Could it be because our government, press, and media have become so corrupt and biased that it’s now virtually impossible for American citizens to find out the truth?

Like the proverbial frog in the pot, we’ve been brought to a boil without most of us ever realizing the danger we’re in.

We’ve allowed the systematic takeover of our country by tyrants, without a shot being fired.

No one can save us now but ourselves. We’d better get cracking.
