

Montana Election Integrity Project Announces Statewide Canvass Findings: Estimated 120,000+ Invalid Votes

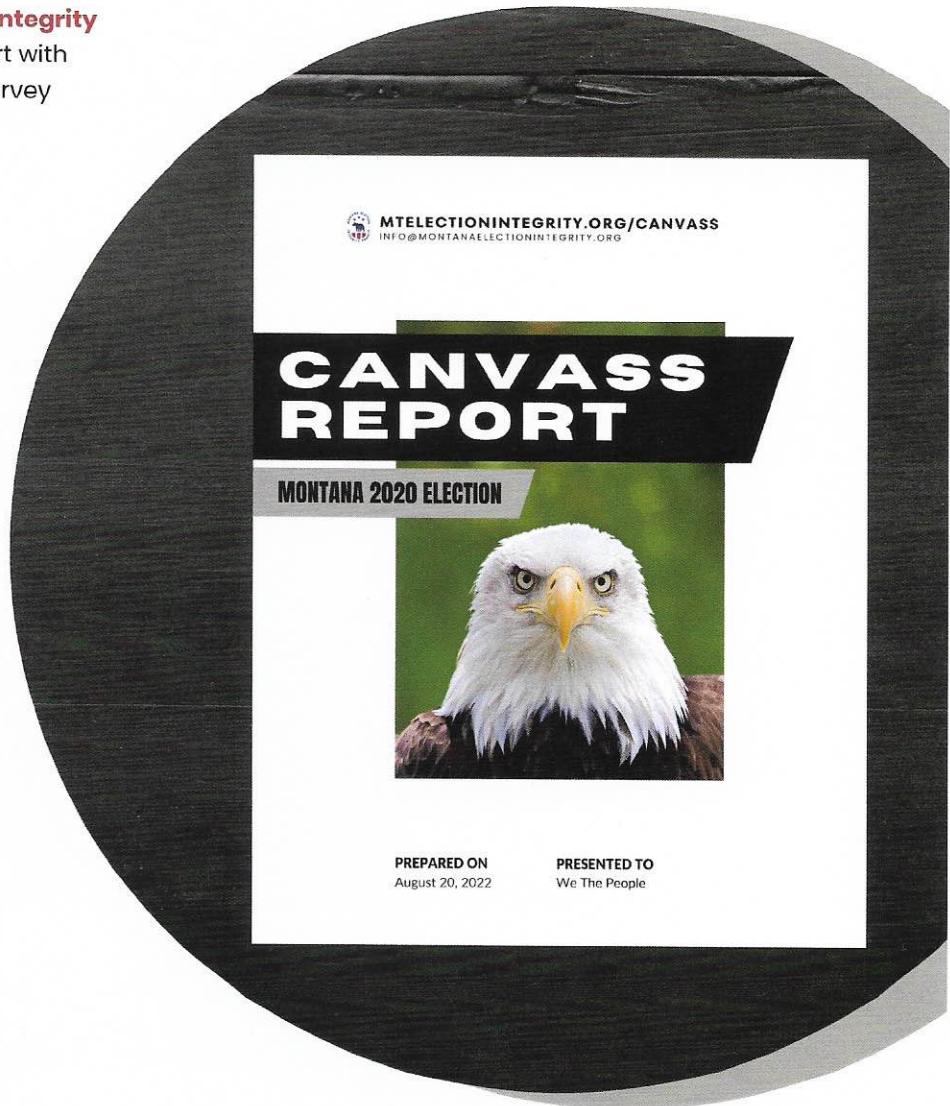

MISSOULA, MONT — August 27, 2022 — Montana Election Integrity Project (MEIP), Grassroots Election Integrity Organization drops bombshell canvass report with findings compiled from thousands of voter survey responses in six Montana counties.

“Of the invalid votes, the most staggering issue canvassers found was with the ballot sent/received dates.

This issue accounted for 15.3% of the voters who were canvassed.”

**- MEIP 2020 Election
Canvass Report**

Montana Election Integrity Project worked with data scientists and analysts both locally and from across the nation to analyze canvass findings. The experts compared the voter's testaments to five publicly available Secretary of State's voter registration files.

Of the 4,347 voters for whom the canvassers obtained information, we found 1,138 voters who cast votes which are considered to be invalid. This is **26.2%** of the voters canvassed. Extrapolated across the whole state of Montana this represents **120,261 invalid votes** !
