

Prayer at Valley Forge by Arnold Friberg(1913-2010)

Lithograph

Since its creation in 1975 for America's bicentennial celebration in 1976, The Prayer at Valley Forge by Arnold Friberg has become one of the most recognizable paintings in American history.

Friberg's painting is a poignant portrayal of General George Washington during one of the most critical moments in the American Revolution. In the harsh winter of 1777-78, amid the immense hardships faced by the Continental Army at Valley Forge, Pennsylvania, Washington is depicted kneeling in a moment of solitary prayer, seeking guidance and strength from God.

The original painting is currently on display at the Museum of the Bible in Washington, DC. A copy hung in the White House the eight years that Ronald Reagan was president.

And now, you too, can own a copy of this iconic masterpiece, professionally matted and framed with museum glass to protect your investment, with Certificate of Authenticity.
